

ORDINANCE NO. 2632

AN ORDINANCE authorizing and directing the execution and delivery in the name and on behalf of the City of Albany, Oregon, of a contract with Pacific Power & Light Company, a corporation, providing for the furnishing by said Pacific Power & Light Company to said City of electric lighting service upon the streets, highways and public places within the corporate limits of said City for a period of ten (10) years from and after the effective date of this ordinance, a copy of the contract so authorized being set forth in this ordinance, and declaring such service essential to the security and welfare of said City and its inhabitants.

THE PEOPLE OF THE CITY OF ALBANY DO ORDAIN AS FOLLOWS:

Section 1: That the City of Albany make and enter into a contract with Pacific Power & Light Company, a corporation, providing for the furnishing by said Pacific Power & Light Company to the City of Albany of electric lighting service for lighting the streets, highways and public places within the corporate limits of the City of Albany, for the period of ten (10) years from and after the effective date of this ordinance, which contract shall be approved by the Mayor, sealed with the corporate seal of the City and attested by the Recorder of the City of Albany, and shall be in words and figures as follows:

(Refer to next page)

ORDINANCE NO. 2632, CONTINUED

Contract for Overhead Circuit Street Lighting
Service on Fixtures Attached to Wood Poles

This contract made and entered into this day of , 195 ,
by and between the CITY OF ALBANY, a municipal corporation of the State of
Oregon, hereinafter designated as "City," and PACIFIC POWER & LIGHT COMPANY,
a corporation, hereinafter designated as "Company," WITNESSETH:

WHEREAS the execution of this contract by the City of Albany has been
duly authorized by Ordinance No. , of the City of Albany, approved by
the Mayor on , 195 , and Company has accepted the undertakings,
terms, and conditions hereinafter in this contract set forth;

NOW, THEREFORE, City and Company do hereby mutually agree as follows:

1. Company shall furnish to City and City shall take and pay for, in
accordance with the terms and provisions hereof, all incandescent and
mercury vapor street lighting service furnished by means of street lights
mounted on Company owned distribution wood poles which the City may require
for lighting the streets, highways, and other public places within said City
for a term of ten (10) years beginning , 195 , and ending
196 , and from year to year thereafter unless and until this contract shall
be terminated by either party at the end of said term or of any succeeding
contract year by written notice thereof given to the other party at least
thirty (30) days prior to the end of such term or of such year, except for
an ornamental mercury vapor street lighting system consisting of 58 street
lights mounted on turned wood poles presently covered by contract dated
September 14, 1949.

2. The service to be furnished hereunder and taken and paid for by City shall initially be furnished by 333 - 1,000 lumen, 51 - 2,500 lumen, and 55 - 4,000 lumen incandescent street lights, together with 9 - 15,000 lumen and 1 - 20,000 lumen mercury vapor street lights, each mounted in a suitable luminaire on a regular distribution wood pole. Beginning as soon as practicable after the date hereof, Company will install additional 4,000 lumen incandescent and 15,000 lumen mercury vapor street lights as requested by City under date of October 12, 1955, and November 23, 1955, and will also remove certain 1,000 lumen incandescent street lights as requested by City in said letters. The resultant system, when all additions and removals are completed, shall consist of 304 - 1,000 lumen, 51 - 2,500 lumen, and 110 - 4,000 lumen incandescent street lights, together with 48 - 15,000 lumen and 1 - 20,000 lumen mercury vapor street lights, all at locations as shown on Exhibit A attached hereto and made a part hereof. It is mutually understood and agreed that all of the additions and removals specified above shall be completed prior to July 1, 1956.

3. For the street lighting service to be furnished by Company, as hereinbefore provided, City will pay Company in accordance with the following schedule of rates:

For All Overhead Circuit Street Lighting Service to be
Supplied from Fixtures Attached to Distribution Wood
Poles Owned by the Company

<u>Lamp Rating in Lumens</u>	<u>Rate Per Month Per Lamp</u>
1,000 Incandescent	\$1.00
2,500 "	1.83 1/3
4,000 "	2.50
15,000 Mercury Vapor	4.25
20,000 "	5.25

Company's rates and charges for street lighting service are, and at all times shall be, subject to the lawful orders and regulations of the Public Utilities Commissioner of the State of Oregon or any other governmental authority having jurisdiction thereof, and Company's rates for street lighting service hereunder are subject to change from time to time by lawful order of said regulatory authority.

4. Should Company at any time become unable to obtain new incandescent filament or mercury vapor lamps for replacement of any lamps theretofore in service hereunder, because of the manufacturers' discontinuing the making of lamps of the same types and lumen ratings, or for any other good cause, Company will install and thereafter operate at the locations of the lamps so superseded a like number of incandescent or mercury vapor lamps of approximately similar standard lumen ratings then commercially available, and thereafter City will pay for the operation and maintenance of such substitute lamps rates which are appropriate thereto.

5. Company at all times hereunder, except when prevented by accident or other cause beyond its reasonable control, will supply the necessary electric energy, and the necessary service for switching on and off such Ordinance, Page 3 - Form of Contract, Page 2.

energy, for continuous dusk to daylight operation of all lights or lamps of the street lighting services provided for hereunder, and will promptly replace all such lights or lamps which shall have burned out or caused to function.

6. Payment for service furnished each month under this contract shall be made by City to Company at the Company's office in Albany, Oregon, within ten (10) days after receipt of bill for the service furnished during such month.

7. Company, upon receipt of written order from City, and subject to availability of manpower and required materials and equipment, will install on distribution wood poles and serve by overhead circuits at the new locations specified in such orders, such incandescent filament type lamps of any of the standard lumen ratings mentioned in Section 3 hereof as City may from time to time direct.

8. Company, at any time upon receipt of written order from City, will discontinue the operation of any light or lamp then in service hereunder as may be specified in such order; and no further payment shall be required of City in respect of the operation of any such light or lamp after Company's receipt of such order of discontinuance; provided, however, that none of the mercury vapor street lights may be so discontinued at any time during the period of five (5) years immediately following their installation.

9. Each order for a change in the lighting service to be furnished by Company hereunder, as provided in the foregoing Sections 7 and 8 hereof, shall be executed in duplicate, substantially in the form indicated on the attached Exhibit "B" hereof, and shall be signed by the Mayor or by the City Recorder. The Company, upon receipt of the duplicate of any such order, shall endorse thereon the date of its receipt over the signature of Company's authorized representative, and shall return to City one counterpart of such order so endorsed. When and as any change specified in such order shall have been completed, Company shall report the fact to City in writing, identifying the work with the particular order of City directing such change and showing the date of such completion.

10. Should City desire additional mercury vapor street lights at other locations, such lights will be installed, owned, maintained, and operated by Company at such rates as are proper, based upon the cost of labor and materials at the time such additional lamps are installed.

11. In the event that City requests either incandescent or mercury vapor street lights, in addition to those specified in Exhibit "A" hereof, at locations where Company would be required to install a distribution pole or poles solely to support the street light fixture and street light overhead circuit,

Company will install, own, and maintain such pole or poles and street lighting equipment upon payment by City of the rates for such street lights as specified herein plus fifty cents (\$0.50) per month for each pole so used.

12. This contract and all of the terms and provisions hereof shall inure to the benefit of and be binding upon the successors and assigns of the parties hereto, respectively.

(End of Form of Contract except testimonium clause, signatures, and seals)

Section 2: It is hereby determined by the Council of the City of Albany that the lighting service provided for in the contract hereby authorized is necessary to enable said City to provide proper protection for itself and the inhabitants thereof, and is essential to the security and welfare of said City and its inhabitants.

Section 3: The Mayor of the City of Albany is hereby authorized and directed to execute and deliver such contract with Pacific Power & Light Company in the name and on behalf of the City of Albany, and the City Recorder is hereby authorized and directed to affix the seal of said City to said contract and to attest the same, upon execution thereby by the Mayor as herein provided.

Passed by the Council: DECEMBER 30, 1955

Approved by the Mayor: DECEMBER 30, 1955
