PUBLIC WORKS DEFINITION OF FEES

SYSTEM DEVELOPMENT CHARGES:

System Development Charges (SDCs) are those fees charged to satisfy that portion of new demand on parks, transportation, water, and wastewater services generated specifically by a new development. Adequate funding for growth-driven capital improvements is necessary to maintain health, safety, commerce, and quality of life within a community. In an effort to secure a constant, equitable framework by which SDCs are collected and disbursed the Oregon State Legislature adopted a State law (House Bill 3224) which regulates SDCs.

The bill establishes requirements for the calculation of fees, and specifies that fees collected must be spent on the capital improvement projects for which they have been assessed. The City is required to provide an annual accounting of SDCs showing the amount collected for each system and the projects that were funded.

SDCs are divided into two categories:

- (1) Reimbursement Fees, which pertain to existing capital improvements, or those under construction, and
- (2) Improvement Fees, which pertain to future capital improvements. An SDC can be assessed for either fee category, or for both. Credit may be given against an SDC when a developer is required to construct a qualified public improvement that meets certain conditions.

SEWER/WATER/STORM/STREET CONNECTION CHARGES:

A Connection Charge shall be due and payable when any property connects to the City's sanitary sewers, water, storm drains, and/or improved streets, which no assessment has previously been levied or for which the cost of constructing the sanitary sewer, water distribution facility, storm drain, and/or improved streets has not been paid by the property.

At the time when a development request is initiated, the Finance Department along with the Public Works Department will determine when the sewer/water/storm/streets were built, and how they were paid for to see if a "connection" fee is due. Engineering Services will determine the amount based on the formula in the Municipal Code. **Please call Engineering Services at (541) 917-7676 for information.**

Prior to planning a development or purchasing a piece of property, it is recommended that a check on the property be completed to see if connection fees are due. These fees will not usually show up as an encumbrance in a preliminary title report.

NORTH ALBANY MAJOR STREET IMPROVEMENT FUND:

Development approval for sites fronting arterial and collector roadways in North Albany are

subject to contributing one-half of the cost of a typical local street improvement, including sidewalk and drainage to help pay for the non-over sizing portion of future improvements to major roadways in North Albany. **Please call the Engineering Division at (541) 917-7676 for information.**

Zoning Map Amendment (Type IV)	\$3,129
Notes:	
(a) Per ORS 197.375(6)	
(b) Plus 0.15% of construction value over \$150,000. Construction value excludes the cost of the land.	
(c) Same fees apply to Modification of an approved project.	
(d) The fee for a public hearing on a tentative decision shall be paid by the applicant, not the person requesting the hearing.	
REFUND POLICY: In cases of withdrawal of an application, refund of fees may be applicable, less costs incurred, as determined by the Director. Generally refunds of 80% will be made for a withdrawn application if it made in writing prior to the City sending out the Notice of Filing or Notice of Public Hearing and preparation of the staff report has not begun. If the notice has been sent but the staff report is not being prepared, then 50% of the application fee will be refunded. No refund will be provided for applications on which work on a staff report has begun.	
Exception: Refund policy of an appeal of an expedited land division shall follow ORS 197.375 regulations.	
There is no fee for land use applications initiated by City of Albany General Fund departments.
