

ORDINANCE NO. 1381

An ordinance granting to the United States Weather Bureau and the United States Geological Survey permission to erect and maintain permanently a concrete structure about six feet square for a water stage recorder on the south bank of the Willamette River between the low and high water levels at the foot of Ellsworth Street and between the upstream or west side of the highway bridge and the extension of the west boundary of Ellsworth Street in Albany, Oregon.

THE PEOPLE OF THE CITY OF ALBANY DO ORDAIN AS FOLLOWS:

Section 1. That permission is hereby granted to the United States Weather Bureau and the United States Geological Survey through its authorized Oregon representatives, Edward L. Wells, Meteorologist, and G.H. Canfield, District Engineer, respectively, to erect and maintain permanently a concrete structure about six feet square for water stage recorder to register the stage and flow of the Willamette River at Albany, Oregon, between the low and high water levels, at the foot of Ellsworth Street and between the upstream or west side of the highway bridge and the extension of the west boundary line of Ellsworth Street in said City.

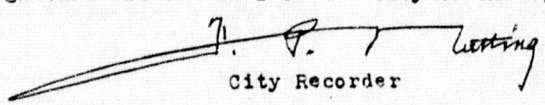

Passed by the Council June 27, 1934
Approved by the Mayor June 27, 1934

W.L. JACKSON,
Mayor

STATE OF OREGON,
County of Linn, ss.

I, F.P. Nutting, Recorder of the City of Albany, Linn County, Oregon, do hereby certify that the above and annexed copy of Ordinance No. 1381 has been by me carefully compared with the original Ordinance Bill No. 1486, now on file in my office, and that it is a true and correct copy of all of said Ordinance Bill No. 1486, passed by the Council and approved by the Mayor on June 27, 1934.

WITNESS MY HAND and official signature and the seal of the City of Albany this 29th day of June, 1934.

City Recorder
