CITY OF ALBANY

INVESTMENT POLICY AND PORTFOLIO GUIDELINES

Revised: November 16, 2005

I. POLICY STATEMENT

It is the policy of the City of Albany ("City") that the administration of its funds and the investment of those funds shall be handled as its highest public trust. Investments shall be made in a manner that will provide the maximum security of principal invested, employing limitations on maturities and diversification of the portfolio while meeting the daily cash flow needs of the City and conforming to all applicable state and City statues governing the investment of public funds. The receipt of a market rate of return will be secondary to safety and liquidity requirements. It is the intent of the City to be in complete compliance with local, state, and federal law. The earnings from investment will be used in a manner that best serves the public trust and interests of the local government.

II. SCOPE

This policy applies to activities of the City of Albany with regard to investing the financial assets of all funds. In addition, funds held by trustees or fiscal agents are excluded from these rules; however, all funds are subject to regulations established by the State of Oregon. Other than bond proceeds or other unusual situations, the total of all funds ranges from \$50 million to \$100 million.

The City commingles its daily cash into one pooled investment fund for investment purposes for efficiency and maximum investment opportunity. The following funds, and any new funds created by the City, unless specifically exempted by the City Council and this policy, are defined in the City's Comprehensive Annual Financial Report.

- General Fund
- Special Revenue Funds
- Debt Service Funds
- Capital Project Funds
- Enterprise Funds
- Internal Service Funds
- Permanent Funds

These funds will be invested in compliance with the provisions of all applicable Oregon Revised Statues. Investments of any tax-exempt borrowing proceeds and any related Debt Service funds will comply with the arbitrage restrictions in all applicable Internal Revenue Codes.

III. OBJECTIVES AND STRATEGY

It is the policy of the City that all funds shall be managed and invested with five primary objectives, listed in order of their priority.

- A. Legality. The Investment Policy will be in conformance with federal laws, state statutes, local ordinances, and internal policies and procedures.
- **B** Safety of principal. Safety of principal is the foremost objective of the City. Investments of the City shall be undertaken in a manner that seeks to insure the preservation of capital in the overall portfolio.
- C. Liquidity. The City's investment portfolio will remain sufficiently liquid to enable it to meet all operating requirements that might be reasonably anticipated.

Revised: November 16, 2005

- **D. Diversification.** Diversification of the portfolio will include diversification by maturity and market sector and will include the use of a number of broker/dealers for diversification and market coverage.
- E. Yield. The City's investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the City's risk constraints and the cash flow of the portfolio. "Market rate of return" may be defined as the average yield of the current three-month U.S. Treasury bill or any other index that most closely matches the average maturity of the portfolio.

Effective cash management is recognized as essential to good fiscal management. Cash management is defined as the process of managing monies in order to ensure maximum cash availability. The City shall maintain a comprehensive cash management program that includes collection of accounts receivable, prudent investment of its available cash, disbursement of payments in accordance with invoice terms, and the management of banking services.

IV. LEGAL LIMITATIONS, RESPONSIBILITIES, AND AUTHORITY

Direct specific investment parameters for the investment of public funds in Oregon are found in the Oregon Revised Statutes (ORS 294.035) with the exception of 294.035 (10) which we do not consider a legal investment.

V. ETHICS AND CONFLICT OF INTEREST

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and investment officials shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees, officers, and their families shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the City.
