The above entitled matter coming now for the consideration of the Governing Body, and

It appearing to the Governing Body;

THAT the Albany City Council approved a rate increase of 2.0 % percent on March 7, 2022, to be effective January 1, 2023; and

THAT, the Albany City Council will continue a low-income assistance program for residential customers that is funded by a monthly surcharge on residential customer bills; and

THAT based on discussions with a citizens water task force and the North Albany County Service District (NACSD) governing body, the NACSD fees, charges and rates should be adjusted by an amount that matches that used for Albany residents; and

THAT NACSD water customers also pay a separate capital charge that is dedicated to replacing failing water lines serving NACSD customers; and

THAT the City of Albany's modification of the water rates are consistent with the original 1990 Albany/NACSD Sewer and Water Maintenance Transition Plan; and

THAT water rates increased 3.5% in 2021; and

THAT water revenues, and therefore rates, must be adequate to cover annual water debt service, operation and maintenance, and capital requirements; and

THAT the Albany City Council determined in 2012 to set future rate increases by evaluating these system requirements annually against anticipated revenues; and

THAT the remaining debt service from a Safe Drinking Water Revolving Fund (SDWRF) loan for previous Dumbeck district customers has been paid off.

NOW THEREFORE, be it hereby ordered;

That the fees, charges, and rates established by this order shall be effective January 1, 2023, as established by the City of Albany; and

That the \$28.65 per customer, per month, capital charge will be collected for the Capital Improvement Program. These monies shall be used for replacement of existing water lines and improvements to the water system in the North Albany area. When properties are annexed to the City of Albany, this fee will no longer be in effect; and

That the service meter installation charges, system development charges, deposits, and all other fees or charges including those for late payment, tampering, turn off/turn on, returned checks, fire protection, account transfer, and credits shall be the same as those fees or charges for City of Albany customers; and

That the monthly water service charges will increase by 2.0 %. The monthly water service charges are shown in Table 1 and the service charges and fees are shown in Table 2; and

That meter readings from meters that measure flow in any gallon increment shall be converted to hundred cubic foot units prior to applying the appropriate consumption charge for calculating the water bill.
